Your event, infused with local culture, becomes a storytelling powerhouse. Our collaborative approach makes planning effortless, ensuring your vision comes to life with energy and style.

# five pillars to event success

### 1 **BOLD** entrance.

First impressions matter and so do memorable experiences. The smallest of budgets can create the biggest impact in the minds of attendees. We will help you deliver on brand curated entrances that create a sense of theatre and story telling that lives beyond the event itself.

### 2 It's all in the details.

Crafting enchantment into events, we seamlessly integrate your theme into every detail. The magic begins as attendees step through the door, with meticulous attention to decor, food, and entertainment. No detail is overlooked, ensuring a flawless experience from start to finish.

### 3 Look up ^

Elevate your events with immersive storytelling. We craft mesmerizing ceiling and aerial decor, ensuring a unique experience that captivates attendees from every angle. Let us help you enchant and captivate your audience at your next event.

### 4 Lighting YOUR world.

Lighting is a transformative element for venues. If your theme relies on color or you have ample space, lighting is the least intrusive yet impactful way to transform your venue. Let us illuminate your event, creating a magical experience for you and your guests.

### 5 Food, glorious food!

A carefully curated menu enhances the immersive experience for attendees. Imagine delightful food stations and scrumptious dishes that seamlessly align with your theme, enticing attendees to capture photos and spark conversations.

DON'T JUST TAKE IT FROM US

# our experience says it all

"When it was decided to hold our international scientific conference in Darwin, Agentur made the choice of PCO easy from the outset. They provided a highly efficient and professional service, which was exemplified by their responsiveness to our demands even when they were under pressure from other bigger events. They organised our international VIPs with a level of service that was beyond expectations and they were exceptionally strong with their organisation of our amazing social events. The decision to choose local also proved important to draw on the experience they'd gathered in the Territory over their years of operation. The society's membership and council will remember the Darwin conference

as one of our most successful events in terms of both participation and profits and we will fondly remember the help Agentur provided."

**Andrew Harford, Snr Research Scientist, Dept' of Environment and Energy**

**Society of Environmental Toxicology**

"Thanks for all your support over the past 6 months to put together this great IPAA National Conference. There was not a single hitch during the dinner, conference, workshops or the YPN function, which is a great credit to your ability to get our committee across what needed to be planned, considered and implemented and your great work

to ensure meticulous attention to detail."

**David Alexander, Executive Director, Housing Programs & Support Services**

"One word - Congratulations. You pulled off the best example of a regional festival in the nation. You made thousands happy. You paraded Indigenous food culture as something day to day. Amazing. One hundred percent success from my POV."
